# EXPLOSIONS

AND SPONTANEOUS COMBUSTION ON BOARD COAL-LADEN SHIPS.

## TAKE NOTICE.

The attention of Shipowners, Shipmasters, and others is hereby drawn to the recommendations of the Royal Commissioners appointed to inquire into the Spontaneous Combustion of Coal in Ships, more particularly to the fourth and fifth recommendations as to the measures to be adopted on board ship in order to prevent these disasters.

The recommendations are as follows, viz. :—

1. That certain descriptions of coal are intrinsically dangerous for shipment on long voyages.

2. That the breakage of coal in its transport from the pit to the ship's hold, the shipment of pyritic coal in a wet condition, and ESPECIALLY VENTILATION THROUGH THE BODY OF COAL CARGOES, conduce to spontaneous combustion, even though the coal may not be unfit for conveyance on long voyages.

3. That spontaneous combustion in coal cargoes would be less frequent if regard were had by Shipowners and Underwriters to these facts.

4. That when coal is being carried on long voyages, the temperature in the various portions of the cargo should be tested periodically by thermometer, and registered in the log.

5. That with a view to guard against explosion, free and continuous egress to the open air, independently of the hatchways, should be provided for the explosive gases, by means of a system of SURFACE ventilation, which would be effective in all circumstances of weather.

6. That in order to make known the descriptions of coal liable to combustion, the Inspectors of Mines should be instructed to hold inquiry into all cases of spontaneous combustion occurring in cargoes of coal taken from their respective districts, exporters being required always to record on their specifications the denomination of the coals forming the cargo.

7. That no additional legislation with reference to the conveyance of coal by sea is required, unless for the purpose of giving effect to our proposals with regard to the inquiries by Inspectors of Mines, and to the fuller specification of coal entered outward at Her Majesty's Customs.

Copies of this notice can be obtained at the Custom House, or Mercantile Marine Office, free of charge.

INGRAM B. WALKER,

*Assistant Secretary.*

Board of Trade,  
Marine Department.

## COAL CARGOES.

The attention of Masters of Ships is directed to the following recommendations of the Royal Commissioners :

" 2. That the breakage of coal in its transport from the pit to the ship's hold, the shipment of pyritic coal in a wet condition, and ESPECIALLY "VENTILATION THROUGH THE BODY OF COAL "CARGOES, conduce to spontaneous combustion, even though the "coal may not be unfit for conveyance on long voyages."

" 4. That when coal is being carried on long voyages the temperature "in the various portions of the cargo should be tested periodically by "thermometer, and registered in the log."

" 5. That with a view to guard against explosion, free and continuous "egress to the open air, independently of the hatchways should be "provided for the explosive gases by means of a system of SURFACE "ventilation, which would be effective in all circumstances of weather."

In the event of an inquiry into any casualty arising on board a ship from spontaneous combustion or explosion, any neglect on the part of the Master or Officers of these recommendations will be brought to the notice of the Court.

The Master is also warned that in the event of his Vessel being found to be in a state dangerous to human life, either from through ventilation, which is conducive to spontaneous combustion of the coal, or from not having sufficient surface ventilation to carry off explosive gas, he will render the ship liable to detention for unseaworthiness, and himself and the Owners liable to prosecution for taking the Vessel to sea in an unseaworthy condition.

Marine Department.

## NOTICE TO SHIPOWNERS AND AGENTS.

### INCORRECT CHARTS.

The attention of the Board of Trade has frequently been called to cases in which British vessels have been endangered or wrecked through Masters attempting to navigate them by means of antiquated or otherwise defective Charts.

The Board of Trade desire, therefore, to direct the especial attention of Ship-owners and their Servants and Agents to the necessity of seeing that the Charts taken or sent on board their Ships are corrected down to the time of sailing. Neglect to supply a Ship with proper Charts will be brought prominently before the Court of Inquiry in the event of a wreck occurring from that cause.

INGRAM B. WALKER, *Assistant Secretary.*

Board of Trade,  
Marine Department.

## CAUTION.

—O—

## NOTICE TO MARINERS.

—O—

A Summary containing all the Notices received at the Board of Trade during the preceding eight months, of any alterations in Lights, Buoys, and Beacons, of any newly-discovered danger, or of alterations in or additions to the Admiralty Charts, is published monthly by the Board of Trade, and issued on or about the 8th of each month.

Copies of this Summary are supplied at all the Mercantile Marine Offices in the United Kingdom to masters of "Foreign Going Ships," and at all the Custom Houses to masters of "Home Trade" and "Coasting" Vessels free of charge.

Copies are also sent to the Government Shipping Offices at each Colonial and Indian Port, and to the British Consulate at each Foreign Port, for the inspection of Mariners who may not be in possession of the latest Summary.

All the "Notices to Mariners" received at the Board of Trade, subsequently to the date of publication of the latest Board of Trade Monthly Summary, are sent to and kept at all the Mercantile Marine Offices and Custom Houses in the United Kingdom for the inspection of Mariners and others interested, until they are inserted in the next monthly Summary.

If the information contained in these Notices is not made use of by Masters, Owners, and Agents of ships, the responsibility rests with the parties who neglect to make use of the information gratuitously offered and abundantly circulated.

# The Universal Shipping (Telegraph) Code.

By F. JONES.

*For the use of Shipowners, Ship Captains, Ship Brokers, Ship Builders, Ship's Agents, Charterers, Coaling Agents, and Underwriters.*

This work, which contains 800 PAGES or nearly 53,000 CODE WORDS, supplies the deficiencies of existing Codes, and furnishes those interested in shipping with a simple, comprehensive, and economical medium of telegraphing on all subjects connected with sailing vessels and steamers in all trades.

It is divided into the following Sections, viz. :—

SECTION I.—Articles and Restrictions.

- „ II.—Packages and Quantities on which Freight is calculated.
- „ III.—Firm Offers and Coal Freight Tables.
- „ IV.—General Phrases—Quantities in Bags, Bales, Barrels, Bushels, &c.  
Money Tables. Numerals and Fractions.  
Dates. Percentages. Coaling, &c., &c.
- „ V.—Ports and Voyages.
- „ VI.—Coaling Stations; and Telegraphic Addresses of Coaling Agents.
- „ VII.—Blank Symbols for Private Use.

Section V. embracing no less than 10,700 Ports and Voyages, which have been compiled from actual charters.

The subject matter has been prompted by long practical experience of the telegraphic requirements of this branch of commerce; and every expedient that continuous practice could suggest has been adopted to secure the highest degree of economy and simplicity.

*The facilities it offers for telegraphing information regarding Charters, Employment, Bunker Coaling, Casualties, Position, Arrivals, Sailings, and Ports, Voyages, Ports of Call and Options of Ports, are unrivalled; and the Code as a whole cannot fail to effect a most important saving in the cost of Messages.*

The arrangement throughout is alphabetical, thus avoiding loss of time in drafting telegrams.

## DR. J. COLLIS BROWNE'S CHLORODYNE

ONLY GENUINE.

ORIGINAL AND

**COUGHS,  
COLD,  
ASTHMA,  
BRONCHITIS.**

**DR. J. COLLIS BROWNE'S CHLORODYNE.**—Dr. J. C. BROWNE (late Army Medical Staff) DISCOVERED A REMEDY to denote which he coined the word CHLORODYNE. Dr. Browne is the SOLE INVENTOR, and, as the composition of Chlorodyne cannot possibly be discovered by Analysis (organic substances defying elimination), and since the formula has never been published, it is evident that any statement to the effect that a compound is identical with Dr. Browne's Chlorodyne must be false.

This Caution is necessary, as many persons deceive purchasers by false representations.

**DR. J. COLLIS BROWNE'S CHLORODYNE.**—Vice Chancellor Sir W. PAGE WOOD stated publicly in Court that Dr. J. COLLIS BROWNE was UNDOUBTEDLY the INVENTOR of CHLORODYNE, that the whole story of the defendant Freeman was deliberately untrue, and he regretted to say it had been sworn to.—See *The Times*, July 13th, 1864.

GENERAL BOARD OF HEALTH, London, REPORT that it ACTS as a CHLORODYNE dose generally sufficient.  
Dr. GIBBON, Army Medical Staff, Calcutta, states: "2 DOSES COMPLETELY CURED ME OF DIARRHŒA."  
From SYMES & Co., Pharmaceutical Chemists, Simla. Jan. 5, 1880.

DEAR SIR.—We congratulate you upon the widespread reputation this justly

esteemed medicine has earned for itself all over the East. As a remedy of general utility, we much question whether a better is imported, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of **DR. J. COLLIS BROWNE'S CHLORODYNE** in Diarrhœa and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleraic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. J. T. DAVENPORT, 33, Great Russell St., W.

We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a deliberate breach of faith on the part of the chemist to prescribe and patient alike.—We are, Sir, faithfully yours, SYMES & CO., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists.

**DR. J. COLLIS BROWNE'S CHLORODYNE** is the TRUE PALLIATIVE in

**NEURALGIA, GOUT, CANCER, TOOTHACHE, RHEUMATISM.**

**DR. J. COLLIS BROWNE'S CHLORODYNE** is a liquid medicine which assuages PAIN of EVERY KIND, affords a calm, refreshing sleep WITHOUT HEADACHE, and INVIGORATES the nervous system when exhausted.

**DR. J. COLLIS BROWNE'S CHLORODYNE** rapidly cuts short all attacks of

**EPILEPSY, SPASMS, COLIC, PALPITATION, Hysteria.**

**IMPORTANT CAUTION.**—The IMMENSE SALE of this REMEDY has given rise to many UNSCRUPULOUS IMITATIONS. Be careful to observe Trade Mark. Of all Chemists, Is. 1d., 2s. 6d., and 4s. 6d.
